## **Salclear Sinazo™, A Natural Solution to Hayfever & Nasal Congestion**

Most people who suffer from these conditions also have a low level of resistance to colds, flu, sinus infections and other respiratory illnesses. Symptoms are due to an over reaction of the immune system.

For the affected nose, throat and eye symptoms and particularly the causes, a topical therapy is required.

It is important that this therapy fulfils a number of essential functions:

- 1.The nose passages and the membranes / tissues have to be effectively cleaned and the accumulated pollen, pollutants and other offending debris have to be loosened and cleaned out.
- 2.The inflammation and swelling and the distress of the mucosa in the upper respiratory system has to be calmed, reduced and normalised.
- 3.A protective lining / barrier has to be put onto the mucosa / tissues of the nasal passages and into the upper respiratory system.

Salclear Sinazo™

The most advanced and effective natural preparation, fulfilling all these essential functions and incorporating the proven natural agents which deal with the causes, not just the symptoms is Sinazo™
